

# ABOUT TRANSOLVE GLOBAL

Transolve is an innovative and adaptable brand that is not afraid to challenge the status quo of freight forwarding. Operating for over 20 years, they have a global reach and offices across Australia, New Zealand, Europe and the USA and an expansive network which is aptly nuanced with their personalised and customer-focused approach.

Transolve provides all international freight forwarding services to a wide range of industries including bulk liquids, industrials, mining, edible oils, FMCG, food & beverages, lubricant oils and wine.

Their services include sea freight in both FCL and LCL, Flexitanks, ISO tanks, Refrigerated Containers (Reefer Containers), Thermal Liners, Customs Broking and more.

Transolve is a market leader who consistently devises strategies and approaches that deliver new, efficient and effective ways of transporting goods across the globe.

It is this service and unique methodology centric approach that has seen Transolve attract a wide breadth of clients across numerous industries, from international conglomerates through to well-established national brands.

Transolve Global's aim is continually innovate, improve and optimise supply chains to achieve better outcomes for clients. This means evaluating every situation with the goal of transporting cargo in the most risk-free, affordable and effortless manner, which has built Transolve a reputation for delivering the best value contracts.

Transolve Global works closely with clients to increase their capability and competitiveness and ultimately have an impact on sales, efficiency and profitability.

Their continual drive and passion to find efficient and innovative ways to optimise performance across logistic networks to maximise the benefit to customers can be observed in detail in the attached case studies:

- Revolutionising Bulk Liquid Transportation in 2023
- Transforming the world of wine for Australia with Weilong
- Changing the Australian agricultural landscape with ROBE

# ABOUT TRANSOLVE GLOBAL

Transolve's extensive experience, reach and networks, extensive shipping lines and unique alliances with transport companies around the globe enables them to offer clients a truly holistic door to door service, supported by complete and seamless visibility using Transolve's tracking IT platform.

In addition, Transolve is also one of the few freight forwarders that provides clients an innovative commercial documentation management service, taking care of all documentation from commercial invoices to certificates of origin preparation through to standard export declarations and PRAs for the receipt advices into port terminals.

An agile and innovative freight forwarding company Transolve excels at helping clients manage the maze that can be freight forwarding with a unique strategy that is multi-channel, multi-layer and all encompassing of a myriad of factors from international events, to holidays through to political landscapes and more, all while supporting clients to foresee, plan and create the optimal logistics solution while minimising any risks involved.
